WHY WORK WITH US?

Efficiency, reliability, and sustainability are key to keeping your operations running at their best. That's why Castrol, Optimol Lubrication and Telko have come together to offer high-performance lubrication solutions designed to reduce downtime, extend equipment life, and lower your Total Cost of Ownership.

With Castrol's world-class lubricants, Telko's industry expertise, and Optimol's specialized lubrication services, we provide a complete package of products, technical support, and efficiency-driven services. Our goal? To help you maximize productivity, ensure reliable operations, and meet the demands of a more sustainable future.

Let's elevate your operations, together.

FORWARD ON YOUR INDUSTRIAL EVOLUTION.

As a global leader in lubrication technology, Castrol provides advanced solutions that maximize machinery efficiency, extend lifespan, and contribute to sustainable industrial operations. Castrol lubricants are designed to tackle your toughest challenges, keeping equipment running, optimizing processes, and reducing both costs and environmental impact. Beyond world-class products, Castrol offers expert industry support and data-driven services that enhance efficiency, add value to operations, and give your business a competitive edge.

Optimol Lubrication

YOUR ADVANCED INDUSTRIAL LUBRICATION EXPERTS.

When it comes to industrial lubrication, precision and reliability matter. Optimol Lubrication, a Telko company, is a trusted expert in high-performance lubricants, automatic lubrication systems, metalworking fluids, and industrial cleaners. With decades of experience and a proven track record, we help manufacturers maximize efficiency, reduce maintenance costs, and keep operations running at peak performance. From reducing downtime to improving sustainability, our solutions are designed to meet the evolving demands of modern industries.

HOME TO OPTIMOL LUBRICATION AND CASTROL PARTNER SINCE 1958.

Telko is a leading distributor of plastics, chemicals, and lubricants, supplying top brands across 17 countries. A trusted Castrol partner since 1958, Telko reported €253 million in net sales in 2024. That same year, it expanded into Western Europe by acquiring Optimol Lubrication and Greenfluid, extending its reach to France, Belgium, Luxembourg, and the Netherlands. This strategic move strengthens Telko's position as a top industrial lubricants distributor, offering premium solutions and technical expertise.
